

Update from the Global Compact Nordic Network

MAY 2016

Important | We ask you to respond to the UN Global Compact CEO Survey

Every three years the Global Compact conducts a CEO Study to understand how the world's leading CEOs are addressing global challenges. This year, with the historic adoption of the United Nations 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals (SDGs), the Global Compact is also undertaking a detailed review of its vision, ambition and strategy. The survey provides a unique opportunity for our participants to make their voice heard on the direction and priorities for the Global Compact to 2030. All registered company contacts have received a unique link to the survey – if you are missing yours – please contact **Sean Cruse** today.
