To provide ICC input to the UNGPs 10+/ Next Decade BHR project, please reply to the 6 core questions below:

1. Where has progress taken place in UNGPs implementation over the course of the last decade? What are the promising developments and practices (by governments, businesses, international organizations, civil society organizations, etc.) that can be built on?

2. Where do gaps and challenges remain? What has not worked to date?

3. What are key obstacles (both visible and hidden), drivers, and priorities that need to be addressed to achieve fuller realization of the UNGPs?

4. What systemic or structural challenges need to be tackled to realize sustainable development based on respect for human rights?

5. In concrete terms, what will be needed to achieve meaningful progress with regard to those obstacles and priority areas? What are actionable and measurable targets for key actors in terms of meeting the UNGPs' expectations over the coming years?

6. Is there other information relevant to the UNGPs 10+ project that you'd like to share?
