

CLP COMMISSION MEETING

19th October 2023

3. Country/Regional updates

ICC Spain updates

**Valle García de Novales, Vice Chair CLP Commission
Chair of ICC Spain CLP Commission**

New Working Group on digitalization of trade

This WG is a joint initiative by ICC Spain's CLP and Banking Commissions, with the following aims:

- a. Adapt Spanish legislation to UNCITRAL Model Law on Electronic Transferable Records (2017), which includes drafting a White Paper with a proposal of laws and regulations which need to be amended and a proposal of a Draft Law on Electronic Transferable Records to be submitted to the Spanish Parliament.
- b. Follow up any trend in global trade digitalization, such as form simplification, speeding up processes and time and cost-saving automatisms, to propose ICC Spain's approach on the matter.
- c. Analysis of previous works carried out by by other ICC National Committees (such as ICC UK, ICC France or ICC Germany) and adapt those efforts to the Spanish reality (in terms of legal framework and culture)
- d. Prepare proposals to help digitalization from a practical point of view, such as pilot tests in limited circles -exporters, importers, transport and logistic operators, customs, banks, insurances- and simple examples to make them understand clearly the advantages of digitalization, thus avoiding inertias and reluctance from future users.

Ibero-American report on Incoterms® 2020 Rules

- Participation of 2 experts from ICC Spain in the elaboration on the report on the use of Incoterms in Latin America that was presented last August and will be presented by ICC Argentina during this ICC Commission meeting.
